Thank you, Lynda. Given this, if it's all the same to you, I will ask Dennis to sign it. I will need to get it signed this week as he will be in D.C. next week.

Ex. 5 - Attorney Client

I may be wrong but think NOAA is handling actual publication of the FRN as I recall they did with proposed disapproval. Is that right, Joelle?

As to the final text of the FRN, let me know if you need any support from here. The email thread says you're taking this in but I'm not clear on that. Happy to provide help as needed even if its just a final copy edit.

The three of us have a check-in tomorrow afternoon where we can get any stray matters squared away.

Subject: Who Signs the Federal Register Notice for Oregon Coastal Nonpoint Program Disapproval (under CZARA)?

Sandy and Steve,

I am resurrecting the email thread below (from about a year ago) because this issue has resurfaced and some facts on the ground have changed. The question is:

Ex. 5 - Attorney Client

I am looking for your advice. Thanks.

Don Wayne

Subject: RE: Signature of Federal Register Notices associated with the Coastal Zone Act Reauthorization Amendments of 1990 (CZARA)

Sandy,

Ex. 5 - Attorney Client

Don, any other guesses?

Thanks,

Steve

p.s. Over time, the actual logistics of publishing the FR notices inviting public comment has, for the most part, been managed by NOAA HQ on behalf of NOAA and EPA.

Subject: Attn Diane Jones-Coleman: Request for EXPEDITED Review of Federal Register Notice & Proposed Findings Document for Oregon CZARA

Hi Diane,

I just place a Federal Register Notice Package on your chair for expedited processing. Macara is reviewing this at the supporting Proposed Findings Document that gets published with the FR Notice. OGC is wrapping up one final scrub of the Proposed Findings Document today, but all have signed off on the FR Notice (well, Macara is reviewing this

now). See Macara's note below that we are positioning this to have Nancy sign the notice before she heads out of town next Monday.

Also, per the hand-note I left for you, a reminder that NOAA will sign the FR Notice after Nancy does. NOAA is also publishing the Notice and has requested that Nancy sign ALL 3 original Notices, but that she should leave the date field blank (for NOAA to fill in once they sign).

THANKS!!

Macara,

You are wonderful. Thanks again. NOAA emphasizes that 3 originals must be signed by Nancy Stoner, but that the date field needs to be blank (so that NOAA can date it after Nancy's counterpart at NOAA signs it). Since NOAA is handling the publishing of the notice, we defer to them on the process.

I am walking a folder of 3 hard copies of the notice down to you right now.

Hi Don. We will get this moving today. Hopefully we can get it to Nancy for signature tomorrow because she's on travel next Monday-Wednesday. If we find changes that need to be made though, sounds like we can still get it to her for signature next Thursday and meet your deadline. If OGC's review does end up with changes being made, please let us know ASAP. Thanks.

I think we're on the same page now, Macara. We definitely hear a big clock ticking and want to get this in front of Water Policy Office eyeballs ASAP. Thanks!

Okay. Thanks for that clarification. So Macara's review can proceed? We just want to get this in her queue ASAP, given the pressing deadline.

Or, more precisely, the documents should clear OGC review tomorrow morning. We don't anticipate any pause or problems.

Subject: Attn Macara - Request for EXPEDITED Review of Federal Register Notice & Proposed Findings Document for Oregon CZARA

Macara,

OWOW is requesting your expedited review of the two attachments. The FR Notice is required to be signed by both EPA and NOAA and published by 12/20/13 under the terms of a settlement agreement. (Actually, the requirement was for an 11/15 public notice, but we renegotiated with the plaintiff after the shutdown for 12/20.)

All of our management through Nancy Stoner & Ken Kopocis have been briefed (along with briefings with R10's RA and NOAA). These documents have cleared OGC review, as well. The goal is to get the final version of these documents in front of Nancy Stoner for her to sign the FR Notice not later than noon on 12/12 so her counterpart at NOAA can sign the notice by 12/16. Any later than that, and we will likely miss our deadline. NOAA is handling the actual typesetting/publishing of the FR Notice.

Thank you!

Subject: Attn Lynda - Oregon CZARA Federal Register Notice & Proposed Findings Document

Lynda,

Attached is what I hope is the FINAL Federal Register Notice and final proposed findings document for Oregon's coastal nonpoint program (barring any last-minute required edits from Macara Lousberg or our management). I checked with Tomeka and with Nancy Stoner's assistant and they both confirmed that these need to be reviewed by Macara in the Water Policy Office before being proffered for Nancy Stoner's signature. I will send these attachments to Macara. Meanwhile, will you please send them to our management in OWOW?

In the interest of time, I am suggesting that we do as much as possible electronically and cut back on formal transmittal memos, since everyone through Benita, Nancy & Ken Kopocis (not to mention NOAA and EPA R10) has already been briefed on this action.

Thank you!

Don Waye
